14 September 2017

Dear Parents/Carers

**FREE ADDITIONAL TUITION**

**Year 11 Mathematics – Saturday Revision**

Beginning Saturday 25<sup>th</sup> September, we will be offering Saturday morning mathematics revision sessions. These will be an opportunity for students to receive some free extra tuition in preparation for their GCSE exam at the end of the year. The focus will be on developing exam technique and practising exam questions.

The sessions will run each Saturday from 9am until 11am up until the exam, with the exception of the Christmas and Easter holidays.

**With a change in focus in the style of the GCSE questions this will be a very important revision session for students and attendance is highly recommended.**

Yours faithfully

A handwritten signature in dark ink, consisting of several loops and a long horizontal stroke extending to the right.

Mr M Plackowski  
Head of Mathematics
